

## BMW DIGITAL KEY & BMW DIGITAL KEY PLUS.

The digital key for your BMW – convenient use via your smartphone or smartwatch<sup>1</sup>.

Go keyless with BMW Digital Key and BMW Digital Key Plus. Your compatible iPhone, Google Pixel or Samsung Galaxy smartphone substitutes for your vehicle's key fob. Simply hold it to the door handle on the driver's side to lock and unlock or, to start the engine, you can place your device in the wireless charging tray. Additionally, users can activate their BMW Digital Key Card; a credit card shaped NFC card.

As the owner you may share your Digital Key with up to five family members or friends<sup>2</sup>. The option of sharing the digital key with restrictions is also possible, this includes maximum speed limiting, volume of radio, etc., e.g. for novice drivers.

With BMW Digital Key and BMW Digital Key Plus, you can always carry your vehicle key with you. Your vehicle recognises your digital key without the need to unlock your mobile device.

<sup>1</sup> Availability of functions depending on vehicle model, equipment, mobile devices, and app settings.

<sup>2</sup> Cross-platform sharing of the BMW Digital Key requires as a minimum iOS 16.1 or later for iPhones and Android 13 or later for Google (Pixel 7, Pixel 7 Pro, Pixel 6, Pixel 6 Pro).
